

# FOSS4GE Mostar 2025

Sponsorship prospectus

# INTRODUCTION

The Open Source Geospatial Foundation (OSGeo) is a nonprofit organization established in 2006 with the mission to promote and support the development of free and open-source software for geospatial technologies. OSGeo fosters collaboration and innovation in open-source software, enhancing the accessibility and usability of geospatial data across various industries.

The organization connects a global community of over 30,000 participants, including developers, users, and enthusiasts of open geospatial technologies. Its members span across 64 countries and actively contribute to the development and promotion of open geospatial solutions.

OSGeo supports and develops a range of prominent open-source projects in the geospatial field. List of the all OSGEO Projects is available on <https://www.osgeo.org/projects/>

# FOSS4GE

## THE CONFERENCE

### FOSS4GE

In addition to supporting the development of software projects, OSGeo provides educational resources, initiates regional events and conferences such as FOSS4G, and builds a global community of professionals, educators, and developers. OSGeo advocates for free access to knowledge, promotes the standardization of open data, and enables the development of innovative solutions that contribute to various fields, including environmental protection, planning, resource management, and urban development.

FOSS4G (Free and Open Source Software for Geospatial) is the world's leading conference dedicated to free and open-source software for geospatial technologies. This conference brings together experts, enthusiasts, developers, researchers, students, and all those interested in geoinformatics to exchange knowledge, experiences, and new ideas. FOSS4G is not just a technology conference but also a platform for promoting open and transparent solutions that foster innovation and accessibility of geospatial technologies for all users.

### Why is FOSS4GE Important?

FOSS4G conferences, supported by OSGeo, are crucial for the development and advancement of geospatial technologies worldwide. These events provide opportunities for networking, sharing experiences, and strengthening partnerships among experts, users, and organizations. FOSS4G Mostar 2025 will be an opportunity to exchange knowledge and establish new connections with people from different parts of the world. It will also contribute to the local community and promote the potential of Mostar as a technological and cultural hub.

# VENUE

The University of Mostar is a prominent institution in the region, fostering academic excellence and innovation. Its facilities are well-suited to host a variety of conference activities, including workshops, presentations, and community sprints. The campus provides modern amenities and spaces conducive to learning and collaboration.

Location of the venue is available on the [link](#)

# TARGET AUDIENCE AND DEMOGRAPHICS

**Expected Attendance:** FOSS4G Mostar 2025 is expected to welcome approximately 600 participants in Mostar and 4,000 online attendees from various industries and sectors, ensuring diverse perspectives and a rich exchange of knowledge.

**Participant Profiles:** The FOSS4G conference audience consists of professionals and enthusiasts with diverse interests and backgrounds:

- **Geoinformatics Experts:** Professionals developing and implementing advanced geospatial technologies.
- **Programmers and Developers:** Creators of open-source software solutions in GIS.
- **Researchers and Academics:** Scientists exploring innovations in spatial data analysis and related technologies.
- **Students and Young Professionals:** Emerging talents in the industry seeking to learn and refine their skills.
- **Decision-Makers and Managers:** Representatives from companies, governments, and organizations utilizing GIS for strategic decision-making.
- **Private and Public Sector Representatives:** Companies, NGOs, and government institutions seeking open solutions for spatial and data management.

**Geographical Reach:** Participants will come from local, regional, and international levels, including anyone interested in geospatial technology and open data. FOSS4G Mostar 2025 will serve as a meeting point for professionals from the Balkans, Europe, and beyond, offering an opportunity for global knowledge exchange

# CONFERENCE PROGRAM

The FOSS4G Europe 2025 conference will be held from July 14 to July 20, 2025, in Mostar, Bosnia and Herzegovina.

The conference begins on Monday with workshops organized over the first two days. On Wednesday, July 16, the main conference sessions commence. Workshops are interactive sessions designed to develop specific skills or knowledge among participants. Unlike seminars, which often focus on lectures and theoretical knowledge, workshops emphasize hands-on activities and active participation.

The conference includes:

- **Workshops**
- **Lectures and Presentations**
- **Social Events**
- **Community Sprint**

# SPONSORSHIP TIERS

Sponsorship Level	Platinum	Gold	Silver	Bronze	Suporter
Price	10.000 €	5.000 €	2.500 €	1.500 €	Flexible
Sponsorships available	1	6	8	Unlimited	Unlimited
Sponsored talk in main track	✓				
Conference Passes	4	3	2	1	
B2B tickets	4	3	2	1	
Speech/presentation during B2B	✓	✓	✓	✓

Sponsor logo on conference banner	✓	✓	✓		
Website promotion & signage	✓	✓	✓	✓	✓
Sponsor Room names		✓			
Mention in press releases	✓	✓			
Exhibition space	16 m <sup>2</sup>	10 m <sup>2</sup>	5 m <sup>2</sup>	✓(*)	

# PLATINUM

PLATINUM level sponsorship is limited to 1 company.

The PLATINUM tier is aimed for a large organization that is interested in making a solid presence on the conference to affirm their commitment to the FOSS4G community.

Your company name and logo will be featured on the delegates name badge and a representative of Your company will have a 30 minute talk slot on the conference plenary session.

**This level includes:**

- 30 minute talk slot during a plenary session.
- Your logo on participant name badge
- 4 conferences passes 4 B2B tickets and 1 speech/presentation during B2B
- Your logo will be displayed on rollups in the venue rooms
- Your logo on the general conference banner in the lobby/main room
- Website promotion and signage (incl. call out on the conference social media)
- Exhibition space 16 m<sup>2</sup>

# GOLD

GOLD level sponsorship is limited to 6 companies.

The GOLD tier is aimed at organizations that are interested in a significant commitment to FOSS4G and wish to take advantage of the marketing opportunities to the maximum.

By becoming a GOLD sponsor You will make a live stream and recording of a parallel session a reality. With the room named after Your company, all the intermission slides that will be streamed live thanks to your invaluable support, and played back anytime somebody starts to rewatch the talk from that room.

**This level includes:**

- A conference parallel track room named after your company
- 3 conferences passes
- 3 B2B tickets and 1 speech/presentation during B2B
- Your logo will be displayed on rollups in the venue rooms
- Your logo on the general conference banner in the lobby/main room
- Website promotion and signage (incl. call out on the conference social media)
- Exhibition space 10 m<sup>2</sup>

# SILVER

PLATINUM level sponsorship is limited to 8 companies.

The SILVER tier is aimed at organizations that are interested in renewing their support to the FOSS4G community and also want a solid marketing presence..

**This level includes:**

- 2 conferences passes
- 2 B2B tickets and 1 speech/presentation during B2B
- Your logo on the general conference banner in the lobby/main room
- Website promotion and signage (incl. call out on the conference social media)
- Exhibition space 5 m<sup>2</sup>

# BRONZE

The BRONZE tier is aimed at smaller organizations that are interested in giving back to the FOSS4G community and also want a formal marketing presence..

**This level includes:**

- 1 conferences passes
- 1 B2B tickets
- Your logo on the general conference banner in the lobby/main room
- Website promotion and signage (incl. call out on the conference social media)
- Since the expo space is limited please talk to us about your needs.

# SUPPORTER

The Supporter tier is designed for institutional supporters, ranging from small to large organizations. While they may not require traditional marketing exposure, their invaluable participation is what makes this conference possible.

**As supporter, you will receive:**

- Website promotion and signage (incl. call out on the conference social media)

Additionally, as supporters have the flexibility to contribute unlimited funds, collaboration with the conference organizers is custom-tailored to maximize the impact of your support.

# THANK YOU!

On behalf of the organizing team, we would like to sincerely thank all potential sponsors and supporters for taking the time to review this prospectus. Your interest and generosity play a vital role in the success of this event. By supporting this initiative, you are not only helping to advance innovation and collaboration in the geospatial community but also contributing to the growth and visibility of our shared mission.

Your support, whether big or small, makes a meaningful difference, and we are deeply grateful for your consideration. Together, we can make this event an unforgettable experience for all involved.

Thank you for joining us in this journey!
